IN THE SPECIFICATION:

The specification as amended below with replacement paragraphs shows added text with <u>underlining</u> and deleted text with ~~strikethrough~~.

Please AMEND the paragraph beginning at page 36, line 15, with the following paragraph:

In the above-mentioned contents conversion, a description language is converted among the HTML (hyper text markup language), C-HTML, MML (~~medical~~ <u>mobile</u> markup language), HDML (hand-held device markup language), WML (wireless markup language), the above-mentioned POIX, etc. as the conversion of a description language.

Please AMEND the paragraph beginning at page 36, line 22, with the following paragraph:

As for the conversion of image data, image data is converted among the formats such as GIF (graphic interchange format), JPEG (joint photographic expert group), BMP (~~basic multilingual plane~~<u>bit map</u>), and TIFF (tag image file format), etc.
